

MABATIROLLINGMILLSKE GitHub README

Here's a **GitHub README template** tailored for your **MABATIROLLINGMILLSKE e-commerce site**. It documents features, setup, deployment, and optimization so collaborators and customers understand the project clearly.

📄 MABATIROLLINGMILLSKE

A professional, stylish, and optimized e-commerce platform for roofing sheets and mabati products in Kenya.

Built with **React + TailwindCSS**, deployed on **Netlify**, and optimized for performance, accessibility, and WhatsApp-first ordering.

📄 Features

- **Homepage Hero** → Branding, trust badges, free delivery, warranty.
- **Product Catalogue** → Infinite scroll, filtering, search, price sorting.
- **Enquiry Form** → Sends customer details directly to WhatsApp.
- **Floating Contact Buttons** → WhatsApp + Call always visible.
- **Accessibility Fixes** → Alt text, ARIA roles, heading hierarchy, focus styles.
- **Dark Mode Support** → Tailwind theme toggle.
- **Image Optimization** → Lazy loading, responsive sizes, WebP/AVIF compression.
- **CDN + Caching Strategy** → Netlify edge delivery with smart cache headers.

📄 Tech Stack

- **Frontend**: React, TailwindCSS
- **Routing**: React Router
- **Deployment**: Netlify (Global CDN)
- **Optimization**: Responsive images, lazy loading, WebP/AVIF, caching headers

🚀 Installation

```
``bash
```

```
# Clone repository
```

```
git clone https://github.com/yourusername/mabatirollingmillske.git
```

```
# Navigate into project
```

```
cd mabatirollingmillske
```

```
# Install dependencies
```

```
npm install
```

```
# Run development server
```

```
npm run dev
```

Deployment

1. Push to GitHub:

```
git add .  
git commit -m "Initial commit - MABATIROLLINGMILLSKE site"  
git push origin main
```

2. Connect repo to **Netlify**.

3. Netlify auto-detects React + Tailwind build.

4. Uses netlify.toml for caching headers.

Usage

- Browse catalogue with infinite scroll.
 - Filter by **gauge** (G28/G30), **finish** (Glossy/Matte), or search by name.
 - Sort products by price (lowest/highest).
 - Click **Order via WhatsApp** → opens WhatsApp chat with pre-filled enquiry.
 - Fill **Enquiry Form** → sends customer details to WhatsApp.
-

Optimization

- **Lazy Loading** → Images load only when needed.
 - **Responsive Images** → Different sizes for mobile, tablet, desktop.
 - **WebP/AVIF Compression** → Smaller, faster images with fallbacks.
 - **CDN + Caching** → Global edge delivery, cache headers for assets.
-

Contact

- WhatsApp: [0780 545126](https://wa.me/0780545126)
- Call: [0780 545126](tel:0780545126)

All orders and enquiries go through WhatsApp or call.

No emails - only direct customer engagement.

License

This project is licensed under MIT - feel free to use and adapt.

This README gives you a **professional GitHub landing page** for your repo, documenting everything from features to deployment.

Would you like me to also **[add badges](ca://s?q=Add_badges_to_MABATIROLLINGMILLSKE_README)** (build status, Netlify deploy, license, etc.) to make the README visually stronger?
